MEMORANDUM FOR:

Chairman, Science and Technology Advisory Panel

FROM:

Richard D. DeLauer

Chairman

SUBJECT:

STAP Scientific and Technical Intelligence Report

- 1. I have read with interest the STAP report on Scientific and Technical Intelligence. The conclusions and recommendations rightly focus on the need for a better awareness of the increasing importance of S&T intelligence to broad US national security needs and foreign policy goals. Also the findings of the lack of clearly delineated responsibilities for S&T intelligence, I believe, point out an area for management concern and where action is required. (C)
- 2. I understand that Admiral Inman and Mr. Casey are considering your report, and I hope where possible that some of your recommendations may be adopted. (C)
